

FHI 360 seeks Country Director in South Sudan

To lead FHI360's HIV/AIDS programs in South Sudan -- and to develop new projects to strengthen health and livelihoods -- FHI 360 seeks a Country Director.

If you have experience managing large US government funded HIV/AIDS projects in post-conflict African countries, and you want to join one of the largest and most effective global health and development organizations in the world, please consider applying for our Country Director position in South Sudan.

<http://tbe.taleo.net/NA12/ats/careers/requisition.jsp?org=FHI&cws=1&rid=2110/> Thanks.

Description

FHI 360 is a global development organization with a rigorous, evidence-based approach. Our professional staff includes experts in **health**, nutrition, education, economic development, civil society, environment and research. FHI 360 operates from 60 offices with 4,400 staff in the U.S. and around the world. Our commitment to partnerships at every level and our multidisciplinary approach enable us to have a lasting impact on the individuals, communities and countries we serve—improving lives for millions. We seek qualified candidates for the position of **Country Director**, South Sudan.

Position Responsibilities:

The Country Director provides leadership and management oversight for all FHI 360's portfolio and activities of the South Sudan country office. S/He oversees operations and, as the primary FHI country representative, ensures strong collaboration between FHI 360 and local Government, donors and partners. S/He represents FHI to external donors/sponsors and leads FHI 360 business and resource development efforts in country. Also serves as project director or chief of party (COP) on designated FHI 360 project/s and will build critical relationships with government and USAID partners.

Minimum Requirements:

MS/MA in public health or related area; Minimum of 10 years of experience in the field of public health and development programming, preferably HIV/AIDS prevention, care and treatment with an emphasis on managing a team of highly successful performers; Minimum of 5 years' experience in designing and managing large, complex USAID-funded projects in international public health and development; Ability to interface effectively with headquarter counterparts and develop and manage strategic partnerships with local government, USG and local and international partners; Ability to perform at a senior policy level, demonstrated by previous experience in leading the development and implementation of international public health and development programs; Knowledge of USAID rules and regulations for contracts and ability to ensure contractual compliance.

Additional Requirements:

Work experience in a post-conflict environment such as South Sudan, Mozambique, Angola or Liberia strongly preferred.
